

88.7 FM, Air1Radio and 105.5 FM KLOVE provide me and my family positive Christian music to enjoy, along with spiritual insight, advice and encouragement for a better quality of life within the community. If either Air1 or KLOVE was displaced due to the proposed LPFM setup, this would be devastating for me, my family and many people within the community. Snuffing out positive alternatives to the filthy smut that blasts freely from some of the local stations in our area would have negative consequences to our community and further degrades our society. Please keep our Air1Radio and KLOVE stations on the air by keeping our local FM translators functioning! Thank you.
